PRESIDENT Pam Dimmerman says.....

Did you know that the National Federation of Republican Women supports all Republican candidates and elected officials, but are particularly interested in recruiting and electing Republican women to office? Using its role as the "education arm" of the Republican Party as a springboard, the Federation began establishing seminars, schools and workshops that taught Federation members how to recruit, train and elect qualified Republican women candidates. And did you know that today, Republican women holding elective office is no longer a rarity, and many of those who have launched winning campaigns give some of the credit to the Federation. Laura Bush once had this to say during a speech she made in 2004, "(The National Federation of Republican Women) has a long history of helping bring women into the political process while promoting the Republican cause."

I remember when I volunteered on my first campaign and attended my first meeting of the Kenton County Republican Women's Club. Mary Middleton invited me to a meeting. I volunteered with her and people like Liz Thomas, Virginia Reel and Ruth York. Some of our senior members probably remember those great volunteers. My first bell ringing for the Salvation Army was with Laverne Schatzman in front of the old McAlpins Department Store which was located on the property where Dillards now stands. And I can tell you, it was Mary's great sense of community involvement that motivated me to get involved which led me to a lifelong commitment of supporting conservative candidates.

Part of the NFRW Mission Statement is quoted as this; "We empower women from all backgrounds in the political process and provide a forum for women to serve as leaders in the political, government, and civic arenas."

Many of us are involved with a number of activities in our communities. I can tell you, none of us would be members of this club if weren't for the number of people like I mentioned in this article. For me, the two most important objectives of our organization is to protect the integrity of our electoral process and increase the effectiveness of women in the cause of good government.

A Republican woman becomes a member by joining her local club or through a national at-large membership. We have many registered Republican who support the platform for which our party was founded.

As a Republican, will you please come join members of our Kenton County Republican Women's Club for one of the many activities we have planned throughout this next year? Better yet, call me so we can put your talents to work.

God Bless you each and every one.

Pam Dimmerman
